

Life

music & lyrics: RB Morris

Life is a lesson in faith

I'm talking about gravity

Life is a stone stacked against another

I'm speaking of spirituality

Life flows and is a river of language

I am referring to biology

Life is a way to come

I am reciting poetry

Life is a distant harmony

Speaking mathematically

Life is divisible by one

I am singing an ancient song

We will not be able to follow

And then we'll meet

Life is a stick in the mud

I am alluding to art

Life is an old hat handed down the generations

I'm talking about religion
