NIMBioS NIMBioS

Mathematical and biological synthesis

I'll say it again

Mathematical and biological synthesis

NIMBioS synthesis

NIMBioS

To collaborate across disciplinary boundaries

To determine the effect of human activities

To promote the individual and public health

NIMBioS NIMBioS

A diverse array of activities to meet our educational needs

NIMBioS NIMBioS

Questions at the interface between biology and mathematics

NIMBioS

To synthesize and summarize information

To help to identify future directions

Creative solutions to complex biological problems
