National Institute for Mathematical
and Biological Synthesis

Summer Research Experiences for Undergraduates

June 9-August 1, 2014 at The University of Tennessee, Knoxville

Looking for a fun summer research experience? The NIMBioS Summer Research Experiences (SRE) for undergraduates provides students in math, biology and related fields the opportunity to conduct research in teams with professors, NIMBioS researchers, and collaborators on projects at the interface of math and biology. This program is open to all undergraduates at institutions in the U.S. at the time of the program, including non-U.S. citizens or permanent residents, if they are on a status that allows them to work.

High school teachers may also apply.

Stipend, housing and support for travel provided.

For more information and to apply, visit:

<http://www.nimbios.org/education/sre>

Application deadline February 14, 2014

The National Institute for Mathematical and Biological Synthesis (NIMBioS) brings together researchers from around the world to collaborate across disciplinary boundaries to investigate solutions to basic and applied problems in the life sciences. NIMBioS is sponsored by the National Science Foundation, the U.S. Department of Homeland Security, and the U.S. Department of Agriculture with additional support from The University of Tennessee, Knoxville.
