

# NIMBioS

National Institute for Mathematical  
and Biological Synthesis

## Postdoctoral Fellowships at the Interface of Mathematics and Biology

**Application Deadline: December 11, 2011**

The National Institute for Mathematical and Biological Synthesis, located at the Univ. of Tennessee, Knoxville, is currently accepting applications for postdoctoral scholarship to begin in 2012. We are particularly interested in requests to support research that integrates diverse fields, requires synthesis at multiple scales, and/or makes use of or requires development of new mathematical/computational approaches. NIMBioS Postdoctoral Fellows are chosen based upon indications that the applicant's research plans are consistent with the mission of NIMBioS, the applicant has the demonstrated ability to carry out the proposed research, and the opportunities provided through NIMBioS will enhance the capacity for the research to be completed in an efficient and timely manner.

**Support:** Annual stipend of \$51,000, full University of Tennessee employee fringe benefits, and an annual travel allowance of \$2,000.

**How to Apply:** Submit a brief project description, references, and CV following the guidelines available at <http://www.nimbios.org/postdocs/> to Dr. Chris Welsh at cwelsh@utk.edu.

*NIMBioS is an NSF-sponsored initiative whose mission is to cultivate cross-disciplinary approaches in mathematical biology and to develop a cadre of researchers who address fundamental and applied biological problems in creative ways. Other sponsors are DHS, USDA, with additional support from The University of Tennessee, Knoxville.*
