4:00 Wrap up

1. Subgroups to present where they currently are on their project (and any new results if applicable)
2. Participants to describe (briefly) the nicest related paper they came across since the last meeting. Please let us know if you would like to discuss one of such papers.
3. Breakout (subgroup) sessions: the bulk of the meeting will be dedicated to group discussions (so that each subgroup will have ample time to focus and actually work on their project). Mobility (of participants) between subgroups greatly encouraged.
